

Program:

Opening symposium of the new Radboudumc Radiotherapy & Oncolmunology laboratory *“Radiotherapy meets Immunology”*

December 1st, 2017, 10-17 hr, Nijmegen, the Netherlands

Department of Radiation Oncology
Radiotherapy & Oncolmunology Laboratory

- **10.00 – 10.10 Opening: Jan Bussink**
- **10.10 – 11.00 Radiovaccination Revisited – a century of lost and found: Bill McBride** (UCLA, Los Angeles, CA, USA)
- **11.00 – 11.40 Mechanisms underlying combined local and systemic responses to radio-immunotherapy: Inge Verbrugge** (The Netherlands Cancer Institute, Amsterdam, The Netherlands)
- **11.40 – 12.20 From local tumor ablation towards systemic immune control: Gosse Adema** (Radboudumc, Nijmegen, the Netherlands)
- **12.20 – 13.20 Lunch**
- **13.20 – 14.00 TBA: Eric Deutsch** (Gustave Roussy, Villejuif, France)
- **14.00 – 14.40 Radiotherapy and immunotherapy combination: paradigm changing or just hype?: Simon Dovedi** (Medimmune, Cambridge, UK)
- **14.40– 15.20 Non-invasive imaging of PD-1/PD-L1 immune checkpoints: Sandra Heskamp** (Radboudumc, Nijmegen, the Netherlands)
- **15.20 – 15.40 Coffee break**
- **15.40 – 16.20 Combination therapy for HPV induced malignancies: a role for Radiotherapy?: Sjoerd van der Burg** (Leids UMC, Leiden, The Netherlands)
- **16.20 – 17.00 Pressing the accelerator rather than releasing the break: Radiotherapy combined with the immunocytokine: Philippe Lambin** (Maastricht UMC+, Maastricht, The Netherlands)
- **17.00 – 18.30 Drinks**
